

Premier DJ Hose

Construction

Double Jacketed Super Strong Premium Construction Hose. Designed and manufactured for Fire Brigade and Heavy Industrial Fire Fighting applications where high water pressure is required. Jackets are made of 100% polyester yarns, seamless woven on circular weaving looms. Inner jacket has extruded tubing of EPDM polymer, which has inherent properties of resistance to hydrolysis, ozone and oxidation.

Salient Features

- Double Jacket, made of 100% high tenacity polyester yarns, for extra strength.
- Internal lining of special quality EPDM rubber resists hydrolysis, ozone and oxidation, hence withstands heat and polluted water.
- Excellent kink resistance
- Ozone resistant
- Hard wearing-resistant to abrasion, oils and chemicals
- Resistant to delamination
- High burst pressure, yet excellent flexibility for operations
- Meeting requirements of UL-19

Diameter mm	38 mm 1 ½"	45 mm 1 ¾"	51 mm 2"	64 mm 2 ½"
Burst Pressure : PSI	1200	1200	1200	1200
Proof Pressure : PSI	800	800	800	800
Working Pressure : PSI	400	400	400	400
15m Length Coil dia : cm	43	43	43	43
Mass. per meter : gm	510	575	625	820
